DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, drawn to an epitope, classified in class 530, subclass 350.
 - II. Claim 4, drawn to an antibody, classified in class 424, subclass 130.1.
 - III. Claim 5, drawn to an application of an epitope for the research of cellular and molecular biology requiring the expression of a fusion protein, classified in class 435, subclass 4.
2. The inventions are distinct, each from the other because of the following reasons:
Inventions I and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the epitope of Group I can be used for methods other than in the research of cellular and molecular biology, i.e., it could be used in a detection assay as a diagnostic reagent or as an immunogen.

Groups I and II are biologically, chemically and structurally different products and therefore are patentably distinct. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and

Art Unit: 1645

their recognized divergent subject matter and since the literature search for the 3 Groups is not coextensive, restriction for examination purposes as indicated is proper.

3. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The Group 1641 Fax number is (703) 308-4242 which is able to receive transmissions 24 hours/day, 7 days/week.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer E. Graser whose telephone number is (703) 308-1742. The examiner can normally be reached on Monday-Friday from 7:00 AM-4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith, can be reached on (703) 308-3909.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
